
A-site composition
Perovskite precursor solvent formulation
Quenching-induced crystallization
HTL material/stack and processing
ETL material/stack and processing
X-site/halide composition
Perovskite composition short form
Back-contact material
Fully inorganic absorber
Back-contact deposition method
Cell stack sequence
Perovskite composition long form
Perovskite additives compounds
Perovskite deposition synthesis atmosphere
Perovskite annealing temperature
B-site composition
Perovskite deposition thermal annealing time
Substrate stack sequence
Perovskite deposition procedure
Backcontact thickness list
